RE: Andrews for Congress ID number C00243428

Dear Mr. Fusselle:

This letter serves as a response to your letter dated August 10, 2010 regarding the Andrews for Congress July 2010 Quarterly report.

I recognize that the Committee failed to file a 48 hour notice report for May 27, 2010. Our procedure for filing those reports are as follows: As treasurer, I check each contribution that is made during the 48 hour notice period to make sure they are acceptable contributions and record them in our campaign software. I then run and file a report the next day for contributions received the previous day. I went over our records and it seems that on May 27, 2010 I entered the May 27th contributions correctly but also entered data for contributions received on May 26th and when I ran the report on May 27, 2010 I thought I was capturing both dates of contributions. However I did not and ended up overlooking the May 27, 2010 contributions. I apologize for the mistake and will be more careful this fall.

Please contact me if you need any additional information. I appreciate your diligence in assisting us with our compliance.

Very truly yours,
Maureen Doherty
Treasurer
